LEVEL 1 PROCEDURE MASK - BFE > 95%

- Bacterial filtration efficiency (BFE %): >95%
- Submicron particulates filtration efficient at 0.1 microns: N/A
- Differential pressure, mm H2O/cm2 (Breathability): Less than 40
- Resistance to penetration by synthetic blood, the minimum pressure in mm Hg for pass results: 70
- Flame spread: Class I

N95 FACE MASK

- High-quality PP nonwoven outside. Activated carbon.
- Inner nose clip or aluminum nose clip outside optional.
- With or without valve optional
- Cup design
- FDA and CE approved, To 3M specs

LEVEL 1 CHILDREN'S PROCEDURE MASK - BFE > 95%

- Bacterial filtration efficiency (BFE %): >95%
- Submicron particulates filtration efficient at 0.1 microns: N/A
- Differential pressure, mm H2O/cm2 (Breathability): Less than 40
- Resistance to penetration by synthetic blood, the minimum pressure in mm Hg for pass results: 70
- Flame spread: Class I

BLANC BLACK REUSABLE MASKS

- High-quality cotton
- Soft Stretchable Fabric
- Breathable Stitching
- Antibacterial material
- Custom branding and logos

LEVEL 2 - PROCEDURE MASK - BFE > 98%

- Bacterial filtration efficiency (BFE %): >95%
- Submicron particulates filtration efficient at 0.1 microns: N/A
- Resistance to penetration by synthetic blood, the minimum pressure in mm Hg for pass results: 120
- Flame spread: Class 1

N95 NIOSH 9500-S

- Model # N95-S 9500 Small
- Suitable for medical use
- NIOSH Certified
- Approval No. TC-84A-5463
- Cup shape
- Nose foam on the interior
- Over-the-head straps
- Adjustable nose piece
- FDA Approved
- 510(K): K020474
- Latex-free
- 20/box; 12 boxes/case; 240 pcs /case

Clear Mask

- Reusable face mask
- 2-ply cotton
- Nose strip
- Earloops with adjusters
- Soft cotton base with clear window
- Gives a view of the mouth, ideal for lip readers
- Fully covers your airways

LEVEL 3 PROCEDURE MASK - BFE > 98%

- Bacterial filtration efficiency (BFE %): >98%
- Submicron particulates filtration efficient at 0.1 microns: N/A
- Differential pressure, mm H2O/cm2 (Breathability): Less than 40
- Resistance to penetration by synthetic blood, the minimum pressure in mm Hg for pass results: 160
- Flame spread: Class I

Antibacterial Washable Face Masks

- 3-Ply Ergonomic Design
- Tested for 99.9% Filtration Efficiency
- Tested for 50 washes
- Antibacterial Silvadur™ technology
- AAA Standard
- Odour Control technology
- Fashionable solid colours & printed designs
- Re-usable
- Comfortable & Breathable
- Adjustable Ear Straps

Champak F550 N95 Respirator (NIOSH Approved)

- The NIOSH approval number is 84A-4394.
- Filter Efficiency of 99.9%
- Inspiratory Resistance of 8.4 MM of H2O
- Expiratory Resistance of 9.9 MM of H2O

EAR SAVERS

- Soft PVC material
- Extra comfort
- Easy to adjust
- Tiger Fit
- Multicolour

Level 3 Mask with Visor

- 3 Ply Level 3 Mask
- Fluid resistant
- Anti-fog
- Convenient earloop design
- Crystal clear integrated visor

KN95 FACE MASK / RESPIRATOR

- Non-woven fabric layer for Blocking Fine Particles
- Activated carbon layer for Formaldehyde and Purifying Odor
- Double Melt blown Filter for Dust
- Cup Hot Air Filter Cotton for Particulate matter and Gas Filter
- FDA/CE Approved

N95 NIOSH SEKURA

- Model # Sekura N95
- Suitable for medical use
- NIOSH Certified
- Approval No. TC-84A-7638
- Soft and comfortable
- Over-the-head straps
- Adjustable nose piece
- FDA Approved
- Latex-free
- 40/box; 12 boxes/case; 480 pcs /case

FINGER OXIMETER

- Type: Blood Testing Equipment
- Certification: CE & FDA
- Power supply: 1.5V (AAA size)
- Voltage: DC 3.0V
- Warranty: 1 year
- Function: SPO2 monitor
- Screen: LED

AAMI LEVEL 3 ISOLATION GOWN (PE, OPEN BACK, THUMB LOOP) - MODEL 1A

- Impervious
- Easy donning and quick removal
- Open back for breathability
- Back waist tie
- Polyethylene (PE) material
- Lightweight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Thumb loop sleeve
- Non-sterile
- Colour options: Blue or Yellow
- Generously sized for greater coverage and flexibility

AAMI LEVEL 3 ISOLATION GOWN (PE, PARTIAL OPEN BACK, THUMB LOOP) - MODEL 1B

- Impervious
- Easy donning and quick removal
- Partial open back for breathability
- Back waist tie
- PE material
- Lightweight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Thumb loop sleeve
- Non-sterile
- Colour options: Blue or Yellow
- Generously sized for greater coverage and flexibility

PROTECTIVE GOWN - APRON STYLE - MODEL 1D

- Classic apron style overall protection
- Easy donning and quick removal
- Open back for breathability
- Back waist tie
- Polyethylene (PE) material
- Lightweight
- Sleeveless design
- Non-sterile
- Universal size

AAMI LEVEL 3 ISOLATION GOWN (PE, FULL BACK COVER, THUMB LOOP) - MODEL 1C

- Impervious
- Easy donning and quick removal
- Full cover front and back
- Back waist tie and front waist tie
- Polyethylene (PE) material
- Lightweight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Thumb loop sleeve
- Non-sterile
- Generously sized for greater coverage and flexibility

PROTECTIVE GOWN - (PP, FULL BACK COVER, ELASTIC CUFF) - MODEL 2CE

- Classic gown with front and back cover
- Fabric-like nonwoven spunbond
- Necktie
- Back waist tie
- Polypropylene (PP) material
- Lightweight
- Sleeve options: Elastic cuff
- Non-sterile
- Size: Universal

AAMI LEVEL 3 ISOLATION GOWN (LAMINATED, FULL BACK COVER, ELASTIC CUFF) - MODEL 3CE

- Classic gown with front and back cover
- Fabric-like feel on the inside and impervious laminated protection on the outside
- Necktie, Back waist tie
- PP + PE coated material
- Medium weight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Sleeve options: Elastic cuff
- Non-sterile
- Size: Universal

AAMI LEVEL 3 ISOLATION GOWN (PE, PARTIAL OPEN BACK, THUMB LOOP) - MODEL 1B

- Impervious
- Easy donning and quick removal
- Partial Open back for breathability
- Back waist tie
- Polyethylene (PE) material
- Lightweight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Thumb loop sleeve
- Non-sterile
- Generously sized for greater coverage and flexibility

PROTECTIVE GOWN - (PP, FULL BACK COVER, NYLON CUFF) - MODEL 2CN

- Classic gown with front and back cover
- Fabric-like nonwoven spunbond
- Necktie
- Back waist tie
- Polypropylene (PP) material
- Lightweight
- Sleeve options: Nylon cuff
- Non-sterile
- Size: Universal

AAMI LEVEL 3 ISOLATION GOWN - (LAMINATED, FULL BACK COVER, NYLON CUFF) - MODEL 3CN

- Classic gown with front and back cover
- Fabric-like feel on the inside and impervious laminated protection on the outside
- Necktie, Back waist tie
- PP + PE coated material
- Medium weight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Sleeve options: Nylon cuff
- Non-sterile
- Size: Universal

AAMI LEVEL 2 ISOLATION GOWN (SMS, FULL BACK, NYLON CUFF) - MODEL 4CN

- Classic gown with front and back cover
- Multi-layer protection with maximum breathability
- Neck tie, Back waist-tie
- SMS material [Spunbond-Meltblown-Spunbond]
- Lightweight
- AATCC 42 -Water penetration ≤ 1.0 g
- AATCC 127 -Hydrostatic pressure ≥ 20 cm water column
- Sleeve options: Nylon cuff
- Non-sterile
- Size: Universal

AAMI LEVEL 3 ISOLATION GOWN (SMS, FULL BACK COVER, ELASTIC CUFF) - MODEL 5CE

- Classic gown with front and back cover
- Multi-layer protection with maximum breathability
- Necktie, Back waist tie
- SMS material [Spunbond-Meltblown-Spunbond]
- Medium weight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Sleeve options: Elastic cuff
- Non-sterile
- Size: Universal

TYVEK SUIT LEVEL 4

- SMS material [Spunbond-Meltblown-Spunbond]
- Disposable full bodysuit
- FDA/CE Approved
- Taped and seam-sealed
- Waterproof
- Front zip closure
- Elastic sleeve cuff
- Adhesive seal protection
- For Medical/ICU use
- High-Risk environment

AAMI LEVEL 2 ISOLATION GOWN (SMS, FULL BACK, ELASTIC CUFF) - MODEL 4CE

- Classic gown with front and back cover
- Multi-layer protection with maximum breathability
- Neck tie, Back waist-tie
- SMS material [Spunbond-Meltblown-Spunbond]
- Lightweight
- AATCC 42 -Water penetration ≤ 1.0 g
- AATCC 127 -Hydrostatic pressure ≥ 20 cm water column
- Sleeve options: Elastic cuff
- Non-sterile
- Colour options: Blue or Yellow
- Size: Universal

AAMI LEVEL 4 ISOLATION GOWN (SMS, FULL BACK, NYLON CUFF) - MODEL 9CI

- SMS Material - 45 GSM
- Sterile
- Industry-leading barrier performance
- Highest level of confidence in our most breathable non-woven protection
- Soft Touch, low noise material for increased comfort
- One size fits all
- Individually packaged
- Disposable
- Latex Free
- Premium Nylon cuffs

TYVEK SUIT LEVEL 1

- SMS material [Spunbond-Meltblown-Spunbond]
- Disposable full bodysuit
- Front zip closure
- Adhesive seal protection
- Waterproof
- Elastic sleeve cuff
- Offers two-way isolation from pathogens

NITRILE GLOVES

- Pure 100% premium nitrile
- Textured surface provides superior wet and dry grip
- Exceptional tactile sensitivity
- Beaded cuff for added strength
- Protects against oil, grease and organic solvents
- Ambidextrous design

AAMI LEVEL 3 ISOLATION GOWN (SMS, FULL BACK COVER, NYLON CUFF) - MODEL 5CN

- Classic gown with front and back cover
- Multi-layer protection with maximum breathability
- Necktie, Back waist tie
- SMS material [Spunbond-Meltblown-Spunbond]
- Medium weight
- AATCC 42 Water penetration ≤ 1.0 g
- AATCC 127 Hydrostatic pressure ≥ 50 cm water column
- Sleeve options: Nylon cuff
- Non-sterile
- Size: Universal

AAMI LEVEL 1 - REUSABLE ISOLATION GOWNS (MODEL 6C)

- Complete front and back coverage for 360° protection
- AAMI Level 1
- Necktie
- Back waist tie
- Good for over 100 washes
- Composition: 99% polyester+1% carbon
- Sleeve: Elastic Cuff
- 100 GSM
- Size: Universal
- Reusability of the gown can provide cost savings, compared to perpetual replacement of disposable gowns

Chemotherapy Nitrile Gloves

- Beaded cuff ensures easy donning and prevent roll down
- Superior strength with better puncture resistance
- Full textured enhances wet and dry grip
- Thinner gauge improves tactile sensitivity
- Provide an alternative solution for individuals who are allergic to Natural Rubber Latex
- Handling the chemotherapy drugs

ALCOHOL WIPES CANISTER (USA ONLY)

- 80 sheets / Canister
- 75% Alcohol
- FDA Approved
- NDC
- 18 x 15 cm
- 45 gsm non-woven material

ALCOHOL WIPES POUCH - 50 SHEET (USA ONLY)

- 75% Alcohol
- FDA Approved
- NDC
- 18 x 15 cm
- 45 gsm non-woven material

ALCOHOL WIPES POUCH -10 SHEET (USA ONLY)

- 75% Alcohol
- FDA Approved
- NDC
- 18 x 15 cm
- 45 gsm non-woven material

MODEL SP790 CORDLESS ELECTROSTATIC SPRAYER

- Brand: MOKI
- Tank Capacity: 12L
- Effective Range : 3 ft - 20 ft
- Particle Size : 10 - xx micron (adjustable)
- Coverage: 21,500 sq.ft on a single tank
- Time: 2 hours
- Battery: Core lithium battery
- Weight: 17 lbs approx
- Cordless, Portable, Backpack

MODEL GNR6 WITH BACKPACK

- Brand: MOKI
- Tank Capacity: 20L
- Spraying Pressure : 0.15 - 0.40 Mpa
- Working Time: 5 Hour Approx
- Battery: Lithium Battery. 4 Hours for a full charge
- Spray lance: Stainless, Telescopic
- Weight: 9 lbs approx
- Portable, Cordless, Backpack Style

MODEL KB150 WITH BACKPACK

- Brand: MOKI
- Tank Capacity: 10L
- Effective Range : 6 ft - 20 ft
- Particle Size : 0 - 50 micron (adjustable)
- Max Flow Rate: 45 L per hour
- Coverage: 6000 sq.ft on a single tank
- Power: 1200 W
- Weight: 9 lbs approx
- Backpack Style

MODEL SF300 WITH SHOULDER STRAP

- Brand: MOKI
- Tank Capacity: 5L
- Effective Range : 9 ft - 26 ft
- Particle Size : 10 - 150 micron (adjustable)
- Max Flow Rate: 29 L per hour
- Coverage: 3000 sq.ft on a single tank
- Power: 1000 W
- Cord Length: 18 Feet
- Weight: 6 lbs approx.
- Handheld and Shoulder Strap

MODEL RT400 CORDLESS ULV COLD FOGGER

- Brand: MOKI
- Tank Capacity: 2L
- Effective Range : 9 ft - 26 ft
- Particle Size : 20 - 160 micron (adjustable)
- Max Flow Rate: 28L per hour
- Coverage: 1200 sq.ft on a single tank
- Time: 1 hour
- Battery: Lithium battery, 120 minutes for a full charge
- Weight: 9 lbs approx
- Cordless, Portable, Handheld

MINI HANDHELD SPRAYER

- Brand: MOKI
- One-press button to activate mist
- Size: 10 cm X 3.5 cm X 3.5 cm
- USB Charger
- Personal disinfectant sprayer for small spaces
- Cordless, portable design

FACE SHIELDS / VISORS

- Double-sided anti-fog
- Anti-dizziness
- Safe and light, easy to carry
- One-piece face shield, Foam headband, Extended Length

Kids Face Shield

- Anti-dust, anti-foam splash, safe protection of mouth and nose.
- Color: Transparent
- Material: PET
- Thickness: 2mm
- Available with animal and cartoon characters

PROTECTIVE GOOGLES

Protective safety goggles with impact-resistant lenses that shield entire eyes; can be worn over existing eyeglasses; with an adjustable head strap for a supportive fit. Highly effective in preventing transmission of viral infections.

PLEXIGLASS ACRYLIC SHEETS

- Protects your employees and customers by stopping the transmission of disease through coughs and sneezes
- Both desk-mounted and floor-mounted options are available so that this protective barrier can be placed virtually anywhere
- Ideal to help maintain social distancing requirement
- Easy to clean and maintain

MODEL RT400 CORDLESS ULV COLD FOGGER

- Single and Double Hand Washing Stations
- NO PLUMBING OR INSTALLATION REQUIRED
- COMPACT & PORTABLE
- SAFE MATERIAL
- FOR PERSONAL HYGIENE AND PROTECTION AGAINST COVID 19

500 ML BOTTLE (GEL) - CANADA ONLY

- 75 % Alcohol
- Health Canada Approved [NPN 80099806]
- Clear plastic bottle
- Kills harmful bacteria and germs
- UPC Code: 9992027205005

60 ML FLIP CAP BOTTLE (GEL) - CANADA ONLY

- 75 % Alcohol
- Health Canada Approved [NPN 80099806]
- Kills harmful bacteria and germs
- UPC Code: 9992027200604

DISPOSABLE SHOE COVER

- Slip resistant
- Size: One size fits most
- Elastic band for flexibility
- Fits all shoes and boots up to USA Men's size 12
- Material: Non-woven

250ML, 500 ML BOTTLE (GEL) - USA ONLY

- 75 % Alcohol
- FDA Approved [NDC 06152016]
- Clear plastic bottle
- Kills harmful bacteria and germs
- 250ML, 500ML available

CONTACTLESS INFRARED THERMOMETER

- CE/FDA/CFDA Certified
- 1-second reading
- Contactless, safer and more accurate
- Infrared sensor measures surfaces, body, & ambient temperatures.
- Centigrade and Fahrenheit reading
- Auto switch-off

Disposable Surgical Cap

- Tie back and latex-free
- The lightweight single layer crown material allows for breathability
- Multi-Layer Polypropylene highly fluid-resistant, yet breathable
- One size fits most

60 ML FLIP CAP BOTTLE (GEL) - USA ONLY

- 75 % Alcohol
- FDA Approved [NDC 06152016]
- Clear plastic bottle
- Kills harmful bacteria and germs

DIGITAL ORAL THERMOMETER WITH CASE

- Material: Plastic.
- Battery: 1x LR41 (Included)
- Measurement time: about 60 seconds.
- Measuring range: 32 °C ~ 42.9 °C.
- Allowable error: ± 0.1 °C (37 °C ~ 39 °C).

Bouffant Cap

- Full head coverage
- Lightweight
- Breathable fabric
- Elastic trim for a comfortable snug fit.
